HOW FAR DO YOU WANT TO GO?

Just play around...
Or take it all the way to the top!

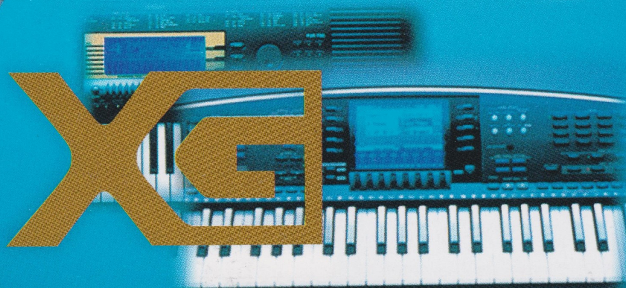

No matter where you want to go with your music, the Yamaha family of musical instruments will help you get there!

Drawing on over a century's experience and incorporating the latest and greatest technology, Yamaha's new lineup of electronic keyboards puts stunning sounds, dynamic rhythms and music styles, and handy easy-play features — right at your fingertips!

From the widely acclaimed full-featured PSR-8000, to the exceptionally easy-to-use PSR-225 and the amazing new dance machine, the DJX — these instruments give you the power to sound like a pro, whatever your playing ability. And now with the new Y.E.S. (Yamaha Education Suite) features, it's never been so easy to learn how to play! So take a look inside, and see just how far you can go with your music!

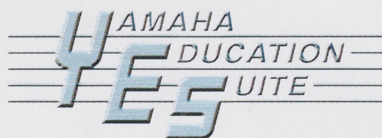

Icons

Special icons indicate at a glance the major features available on each instrument. The glossary below explains what each icon stands for.

Y.E.S.

The Yamaha Education Suite features a complete set of specially designed tools to make learning music easy and fun!

PORTABLE GRAND

Instantly reset the entire instrument for optimum piano play.

STEREO SAMPLING PIANO

This amazingly rich and authentic voice uses stereo recordings (samples) of an actual grand piano for stunningly natural sound.

DYNAMIC FILTER

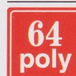

Dynamically controls the timbre or tone of a voice according to your playing strength — just like a real acoustic instrument!

XG
Yamaha XG MIDI extends GM voice selection, expression and control.

Bass Reflex Speaker System
A special port adds powerful impact to bass sound reproduction.

64-Note Polyphony
Up to 64 notes can be reproduced simultaneously for intricate musical arrangements.

DSP
Digital Signal Processing enhances sound quality with sophisticated digital effects.

Multi Effector
Use multiple effects in combination to expand your sonic range.

Easy Operation System
Complex recording and Music Cartridges are now push-button simple!

Modulation Wheel
Bend and shape notes as you play with fingertip expressive control.

To Host Port
Built-in computer interface allows easy connection to PC or Macintosh computers.

Digital Equalizer
Control over individual frequency ranges lets you customize the sound.

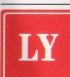

16-Track Sequencer
Record and play music with up to 16 tracks of lushly layered sound.

Virtual Arranger
VA feature adds sophisticated variations to accompaniment chord progressions.

Groove & Dynamics
Vary the accompaniment as you play with wide-ranging custom control.

Song Lyric Display
See the words to the songs being played on your keyboard (with lyric-encoded recordings).

AWM
Yamaha Advanced Wave Memory technology delivers amazingly realistic sound.

MIDI
Musical Instrument Digital Interface lets electronic musical instruments work together.

GM
With General MIDI compatibility, song data always plays the correct sounds.

Touch Response
Your playing can be as expressive as on an acoustic instrument.

Stereo
Stereo sound adds realistic character and spatial depth.

Built-In FDD
The internal flopy disk drive gives you unlimited storage capacity.

DOC Compatibility
Access the vast library of music available in the Yamaha Disk Orchestra Collection.

Style File
This versatile accompaniment format lets you add even more styles from disk or cartridge.

FM
FM tone generation uses digital sine wave generators to synthesize complex instrumental and electronic sounds.

Music Cartridge
More great music is available on Yamaha cartridges containing song and style data.

PCM
Pulse-Code Modulation which is the same digital sampling technology used in the production of music CDs.

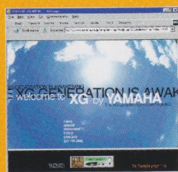

Guide Lamp
Unique learning and practicing options. A lamp above each key lights to show you which notes to play on the keyboard.

The Yamaha XG Your passport t

Free Internet tools for your music!

MIDPLUG and Sound VQ are two powerful pieces of software that make your computer music-ready — and, best of all, they're free! Get online and check them out!

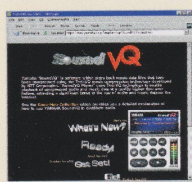

MIDPLUG for XG

MIDPLUG is a free, downloadable plug-in software specially created for Internet applications. Designed to work with Netscape Navigator and Microsoft Internet Explorer, MIDPLUG provides MIDI compatibility for your Net surfing, letting you instantly enjoy MIDI music built into compatible websites.

MIDPLUG features a high-quality "Soft Synthesizer" that plays back MIDI song data — reproducing music quickly and accurately, with a minimum of drain on your system resources. It also features tools for creating exceptionally high-quality music with which you can enhance your own web pages. And with Sample Gallery — a collection of sample pages with MIDI music — you can simply copy the music you like and drop it into your own home page!

For more information on MIDPLUG and how to download it, go to the following web address:

www.yamaha.co.jp/english/xg/midplug/mplug.html

Sound VQ

Sound VQ brings high-performance audio data compression to Internet applications. Using the advanced Twin VQ technology (developed for the Japanese telephone industry), Sound VQ boasts an impressive compression rate of 1/20, while maintaining virtually identical, CD-like audio quality.

Sound VQ is free for downloading, and is remarkably easy to use — yet it provides enormous flexibility. Used simply as a player, Sound VQ integrates seamlessly with your browser (Netscape Navigator 2.0 or later; Microsoft Internet Explorer 3.0 or later). It works transparently in the background as you browse, automatically playing back audio content from web pages — at sound quality that is simply astounding!

Available for both the Windows and Macintosh platforms, Sound VQ lets you compress your own WAV or AIFF soundfiles — without the need for any special hardware, and distribute them with near-CD quality (or less, if desired). Because it's so easy to use, Sound VQ makes it simpler than ever for you to add high-quality, fast-playing sound and music to your own home page!

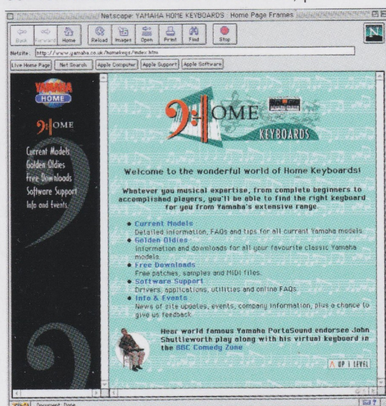

An optional "Stream Playback" function lets you listen to the sound of even huge audio files, without having to wait for all data to be received. Stream Playback also lets you prevent unauthorized copying of your original sound data by streaming it to the receiver without actually leaving the data behind!

For more information on Sound VQ and how to download it, go to the following web address:

www.yamaha.co.jp/english/xg/SoundVQ/index.html

Home Keyboards

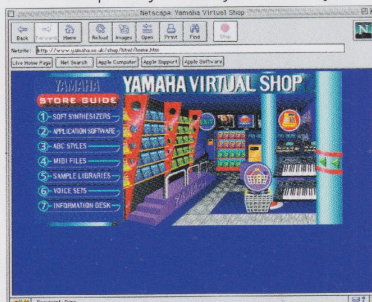

Here's a new website for home keyboard devotees of every level - from beginners to pros. It features useful information and convenient downloadable software, plus some fun extras!

www.yamaha.co.uk/homekeys/index.htm

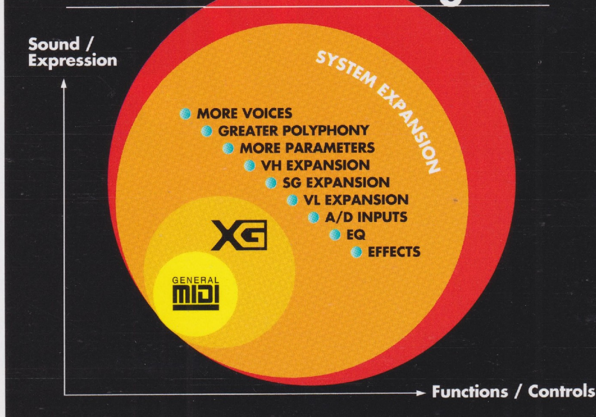

Yamaha Virtual Shop

Here's your one-stop source for music equipment and software online! Packed full with important information and detailed product descriptions, the Yamaha Virtual Shop lets you easily find exactly what you need — right away!

www.yamaha.co.uk/shop/html/home.htm

G Format
to the future!

What is XG?

Yamaha's XG format is a significant extension and enhancement of General MIDI (GM). Naturally, all XG-compatible instruments provide full GM compatibility — ensuring that commercially available GM song software will play back instrument voices and drum sounds correctly, and sound just as the composer/programmer intended.

However, XG takes the GM format much further than that. The XG format provides:

- Minimum 32-note polyphony.
- Huge set of additional voices, including variations on the GM set, plus a wide variety of completely new voices.
- A minimum of three effect processors with a large number of effect types.
- MIDI control of analog signal inputs (for example, processing a microphone input with harmony effects, etc.).
- Extensive set of standardized voice and effect parameters, also MIDI-controllable.

All of this gives you amazingly expressive control over your music. It also ensures that all XG song software will play back with all the dynamic and expressive nuances that they were created with.

Direct Computer Connection

All XG-compatible PortaTones feature a convenient TO HOST terminal and built-in computer interface. This allows you to directly connect the PortaTone to a PC or Macintosh computer, and take advantage of the wealth of powerful sequencing and other music software to create and edit your own music!

XG Grows as You Do!

When you're ready to expand your music and sound capabilities, XG is ready to keep pace with you. Yamaha features a wide range of powerful and compatible XG products — from keyboards and tone generators to sequencing and editing software — that let you explore the full musical and sonic potential of XG!

XG Song Software

A large and constantly growing selection of song software is available in the XG format. These have been specially recorded to take advantage of and showcase the various features of XG-compatibile instruments.

XG and the Internet

XG compatibility also ensures that you can tap into the vast wealth of XG material available on the Internet. If you're "online," check out some of the websites shown here and their links, and see what's happening in the wide wonderful world of XG!

Awesome

ULTIMATE ENTERTAINMENT POWER

Powerful new sounds, features and styles — designed for the home user and entertainer alike.

Total 9 Blocks DSP

The cutting-edge combination of DSP technology and newly-developed AWM sounds make it incredibly easy to produce today's hottest sounds. Choose from 98 types of DSP, including 24 types of Reverb and 20 types of Chorus for accompaniment parts, and Four blocks of DSP with 78 types of digital effects for insertion.

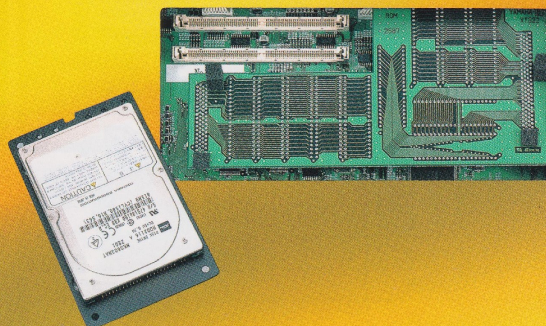

Sampling CD

The PSR-8000 also includes a special Audio Sampling Library CD, packed with a huge variety of audio tracks. Load them into the built-in sampler and take your music even higher!

High-capacity Memory Expandability

As your needs grow, so can the PSR-8000's memory. Sampling wave RAM is expandable up to 33 MB using pairs of optional SIMMs. An internal hard disk of up to 780 MB can also be installed.

PSR-8000

Top-of-the-line musical power and range with 12 MB Wave ROM for unprecedented depth of sound. 741 AWM voices including specially designed "SWEET" voices. Expandable Wave RAM, Multi Effects, TO HOST terminal, XG/GM/DOC compatible. EQ for 29 Parts, Groove & Dynamics, Sampling, Lyrics. Large Back-lit LCD, Mic Input with vocal harmony including "Gender" and "Pitch Correct" functions. Talk Button for live performance. Custom Voice/Style Creator for home studio sound designing power.

• 61-keys • Touch Response (Initial, After) • Vocal Harmony • Lyrics • Sampling • SIMM Expansion • 64-note Polyphony (Max.) • Large 240 x 320 Dot Back-lit LCD • 214 Accompaniment Styles (specially designed for Entertainers) • Custom Style Creator (16) • Custom Voice Creator (32) • Customize Voice/Style List, Organ, Flute (Sine, Vintage) • MIDI Setup Template • 8 x 16 Registration Memory with Freeze Function • 4 Multi Pads (50 Preset Bank, 10 User Bank) • Revoice Function • Master Transpose, Song Transpose • Pitch Bend & Modulation Wheels • Portamento, Glide • 16-track Sequencer • 5-language HELP Function (English, German, French, Spanish, Italian) • Direct Access Button for quick operation • Hard Disk (Option) • 3.5" Floppy Disk Drive (2HD/2DD) • Disk Direct Play • Disk Orchestra Collection, Disklavier PianoSoft, Style File Format & Standard MIDI File Compatibility • XG Format Compatible • General MIDI compatible • XF Format Vocal Harmony for XG Compatible • Mic/Line Input • High Quality Sound (12MB Wave ROM, Dynamic Filter x 2) • Multi Effects (9 Blocks—Rev: 24 types, Chorus: 20 types, DSP: 98 types, Insertion DSP: 78 types) • To Host Terminal • Mixing Console, EQ for 29 parts, 5 band Master EQ • Groove & Dynamics • Auto Harmony and Multi Assign • Loop send/Return, AUX out • 1058 mm (W) x 446 mm (D) x 176 mm (H) • 16 kg

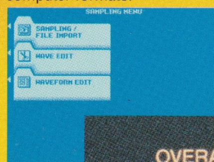

XG Compatible / To Host port

With a To Host port for direct connection to your computer and lavish XG format sounds, the PSR-8000 is a great upgrade for your home studio.

CD Quality Sampler

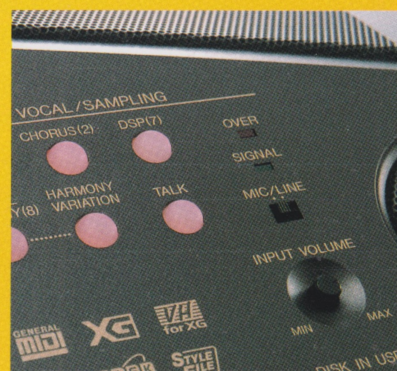

Give your music and performance a creative edge with the built-in sampler and sample editing functions. The PSR-8000 also reads WAV and AIFF files, letting you tap into the vast amount of sampled sounds in those popular computer formats.

Intelligent Vocal Harmony

The answer to every vocalist's dream! This amazing feature instantly and automatically adds appropriate harmony parts to your singing voice — and can change gender, too!

PORTATONE

PROFESSIONAL POWER FOR YOUR BEST PERFORMANCE

PSR-730

Music Cartridge

The Music Cartridge system adds an exciting dimension to playing, learning and listening to music on any PSR keyboard with Music Cartridge compatibility, by providing additional accompaniment Styles and Songs. Play along with some of the greatest music ever made–just turn off the melody (Minus One playback) and start playing. (For details about available Music Cartridge titles, contact your nearest Yamaha dealer.)

Computer Music

Tap into the vast world of computer music — the gateway to unlimited learning, composing and arranging potential. All PSR keyboards are MIDI-equipped, letting you integrate easily into any MIDI music system. What's more, models with the special To Host terminal let you directly connect to a computer with just a single cable — giving you instant and seamless access to powerful music sequencing software, and more!

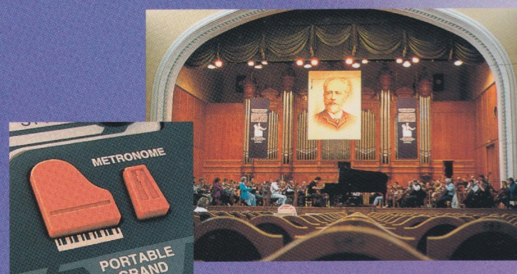

PORTATONE

Music-making fun for the entire family!

The PSR-225/195/79 PortaTone keyboards feature a variety of convenient and educational features. (Fun, too!) Foremost among them are Portable Grand, and the Y.E.S. (Yamaha Education Suite).

Portable Grand

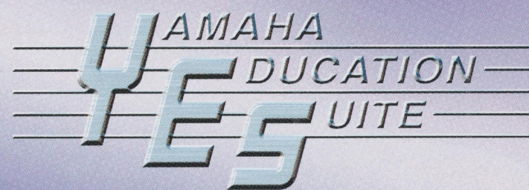

Electronic keyboards can be confusing — so many different functions, so many possibilities. Sometimes you just want to sit down and play the piano...

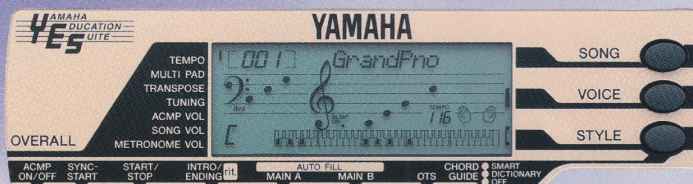

The new PSR-225/195/79 PortaTones let you do that — instantly! Simply press the PORTABLE GRAND button, and the PortaTone is automatically configured for realistic piano play.

Stereo Sampling Grand Piano Voice
Pressing the PORTABLE GRAND button calls up a specially programmed Stereo Sampling Grand piano voice — stunningly rich and authentic in its sound, and exceptionally responsive to your playing touch!

Instant Piano Play
Portable Grand automatically configures the entire instrument to settings that best suit the Grand Piano voice. This means that no matter what operation or function the PortaTone is set to, the Portable Grand is just a button touch away! On the PSR-225, this includes turning Touch Response on and resetting the optional footswitch to control sustain.

Pianist Styles
The PortaTones also include a wealth of special piano-only "Pianist" styles. These provide professional-sounding piano accompaniment — changing chords automatically as you do — while you play a piano melody on top!

Learning how to play music shouldn't be a chore! The more fun you have, the better you learn... That's the philosophy behind Y.E.S. (Yamaha Education Suite) — a full "suite" of learning tools that utilize the latest technology to make studying and practicing music more fun and fulfilling than ever before!

Melody Guide (PSR-195/PSR-79)
The Melody Guide functions — Waiting and Minus One — make it incredibly easily to learn songs. They even show you what notes to play! The PortaTone also gives you 100 songs to learn and practice — simply play along while reading the included Song Book! Plus, there's a convenient A/B Repeat function that lets you repeatedly practice specific parts, until you get them just right!

- **Waiting**
This function pauses the song as it plays back — just like a patient teacher! — so you can practice parts at your own pace.

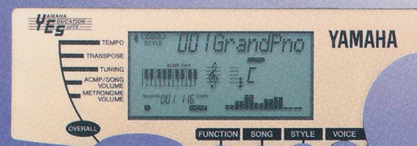

- **Minus One**
This function takes away (mutes) the melody part, so you can play it yourself. With the professionally programmed accompaniment backing you, it's easy to "feel" the song and play your best!

Chord Guide
The Chord Guide functions help you learn about chords and how to use them. They're ideal for learning — and performing!

- **Smart**
With Smart, the PortaTone "knows" what chords are right for certain keys. All you have to do is specify the key, then play single notes in the scale — the PortaTone automatically plays harmonically "correct" chords for you!

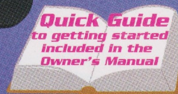

- **Dictionary**
Dictionary is a built-in "chord encyclopedia" that teaches you how to play specific chords. Simply type in the chord name, and the PortaTone shows you which notes to play!

- **EZ Chord (PSR-225)**
EZ Chord gives you convenient single-note control over chords. It's an amazingly powerful yet simple way to create and play your own chord progressions. Simply record all the chord changes you need for a song, then play back each chord one after another by simply pressing a single key!

Portable Grand

PSR-225

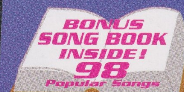

The features and performance your music deserves! Portable Grand™ function for true piano sound and touch — plus the powerful Yamaha Education Suite learning tools, and GM compatibility.

• 61 Keys • Touch Response • Dynamic Filter • Portable Grand Function with Metronome • Y.E.S. (Yamaha Education Suite) Functions: Dictionary, Smart Chord, EZ Chord • 238 AWM Voices (100 panel voices + 10 drum kits + 128 GM voices) • 32-note Polyphony (max.) • Large LCD • Digital Effects (Reverb: 8 types; Chorus: 4 types; DSP: 33 types; Harmony: 26 types) • 100 Accompaniment Styles • One Touch Setting (200 Preset, 16 User) • Multi Fingering Auto Accompaniment • Footswitch Control (over various functions) • Dual Voice • Split Voice • 6-track User Song Recording (Realtime and Step) • EZ Chord Recording • MIDI Compatibility • General MIDI Compatibility • Stereo Sound System • 933 mm (W) x 370 mm (D) x 129 mm (H) • 5.5 kg

PSR-195

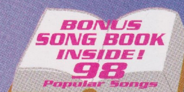

Gorgeous sound and sophisticated functions in a 61-key keyboard. Portable Grand™ gives you authentic acoustic piano sound, while Y.E.S. "Melody Guide" and "Chord Guide" functions make learning music fun and easy!

• 61 Keys • Portable Grand Function with Metronome • Y.E.S. (Yamaha Education Suite) Functions: Melody Guide (Waiting, Minus One), Chord Guide (Dictionary, Smart) • A/B Repeat • 100 AWM Voices • 16-note Polyphony (max.) • Large LCD • Voice Effects: Dual, Harmony/Echo, Split • 100 Accompaniment Styles • 100 One Touch Settings • Multi Fingering Auto Accompaniment • Multi Pads (2 pads x 20 banks) • Footswitch Sustain Control • MIDI Compatibility • Stereo Sound System • 931 mm (W) x 351 mm (D) x 110 mm (H) • 4.7 kg

PSR-79

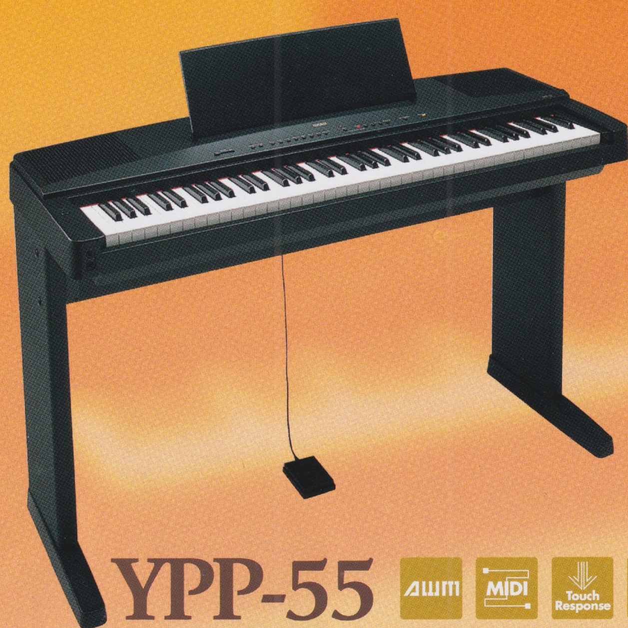

Full, realistic sound and advanced features — in a compact keyboard. Portable Grand™ gives you authentic acoustic piano sound, while Y.E.S. "Melody Guide" and "Chord Guide" functions make learning music fun and easy!

• 49 Keys • Portable Grand Function with Metronome • Y.E.S. (Yamaha Education Suite) Functions: Melody Guide (Waiting, Minus One), Chord Guide (Dictionary, Smart) • A/B Repeat • 100 AWM Voices • 16-note Polyphony (max.) • Large LCD • Voice Effects: Dual, Harmony/Echo, Split • 100 Accompaniment Styles • 100 One Touch Settings • Multi Fingering Auto Accompaniment • Multi Pads (2 pads x 20 banks) • MIDI Compatibility • Stereo Sound System • 931 mm (W) x 351 mm (D) x 110 mm (H) • 4.7 kg

PERSONAL PIANO

The powerful sound of an authentic acoustic grand piano, complete with touch response, plus digital versatility.

YPP-55

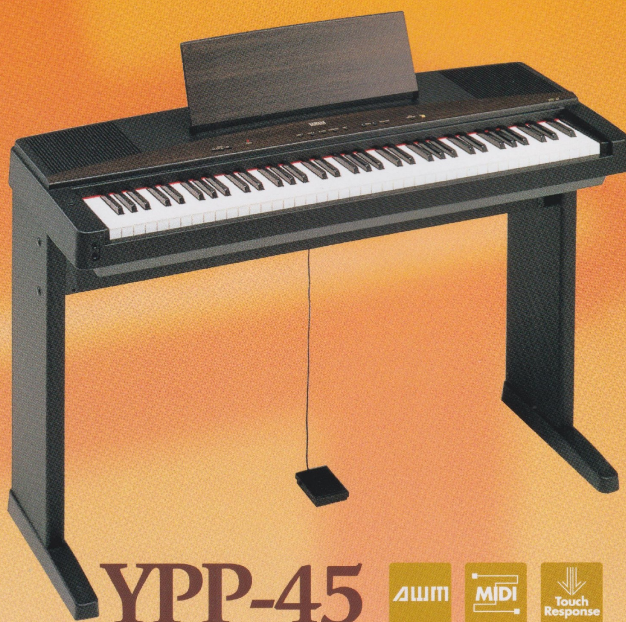

Perfect for seasoned players as well as beginners, with full-scale keyboard, the true sound and touch of an acoustic grand piano, plus other high quality AWM voices, performance memory and stereo sound.

• 76 keys • Adjustable Touch Sensitivity • 8 AWM Voices • 32-note Polyphony (Max.) • Digital Reverb • Ensemble Function • 4-bank Performance Memory • Transpose & Pitch Control • Damper (Sustain) Pedal Included • Metronome • Dual Headphone Jacks • MIDI Compatibility • Stereo Sound System • 1203 mm (W) x 433 mm (D) x 147 mm (H) • 14.0 kg

YPP-45

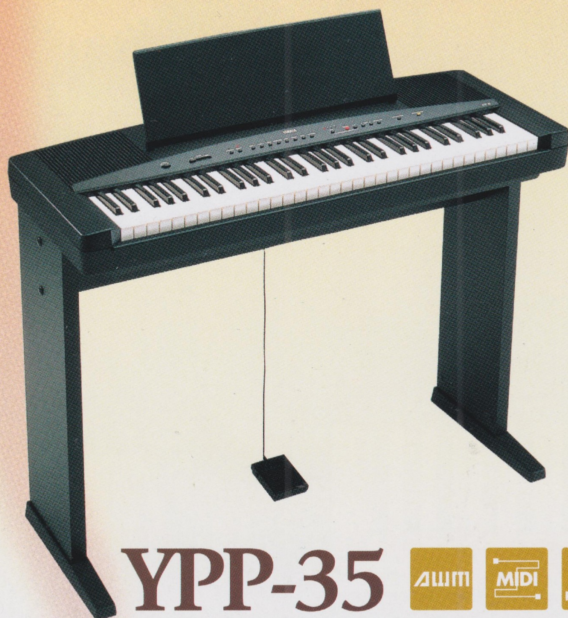

Great for practice or high quality home entertainment, with more than 6-octave range keyboard, a selection of AWM voices, MIDI compatibility and two headphone jacks.

• 76 keys • Adjustable Touch Sensitivity • 5 AWM Voices • 28-note Polyphony (Max.) • Transpose & Pitch Control • Damper (Sustain) Pedal Included • Metronome • Dual Headphone Jacks • MIDI Compatibility • 1203 mm (W) x 433 mm (D) x 147 mm (H) • 14.0 kg

YPP-35

Something for everyone in the family, with the sound and touch of a real piano, a 61-key keyboard, two headphone jacks and performance memory.

• 61 keys • Adjustable Touch Sensitivity • 8 AWM Voices • 32-note Polyphony (Max.) • Digital Reverb • Ensemble Function • 4-bank Performance Memory • Transpose & Pitch Control • Damper (Sustain) Pedal Included • Metronome • Dual Headphone Jacks • MIDI Compatibility • Stereo Sound System • 970 mm (W) x 381 mm (D) x 123 mm (H) • 9.1 kg

YPP-15

An elegant addition to any room in the home, with the powerful sound and dynamic expressive capabilities of an acoustic grand piano, transpose and pitch control and MIDI compatibility.

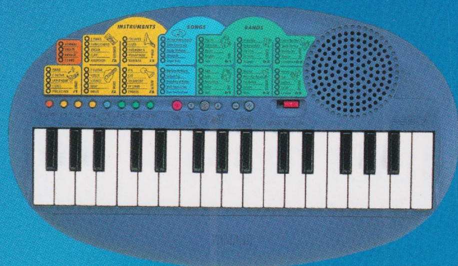

• 61 keys • Adjustable Touch Sensitivity • 5 AWM Voices • 28-note Polyphony (Max.) • Transpose & Pitch Control • Damper (Sustain) Pedal Included • Metronome • Dual Headphone Jacks • MIDI Compatibility • 970 mm (W) x 381 mm (D) x 123 mm (H) • 7.5 kg

Keyboard stands are optional equipment.
Availability of models may vary from country to country.

PORTASOUND

Small size and big features let you play great music anytime and anywhere.

PSS-7 AWM PCM

Add more fun to any party with high quality voices and rhythms, versatile auto accompaniments and handy "Computer Aided Music" system.
• 32 Ultra-mini keys • 100 AWM Voices • 6-note Polyphony (Max.) 2 (Key Play) • 30 Auto Accompaniment Styles • 10 Songs • 332 mm (W) x 193 mm (D) x 49 mm (H) • 0.5 kg

PSS-6 AWM

Non-stop family entertainment and personal enjoyment with a hundred AWM voices and fun playback features.
• 32 keys • 100 AWM Voices (including Dual, Split, Harmony, Sustain & Echo Voices) • 12-note Polyphony (Max.) • 15 Jam Track Patterns • "Minus One" Playback • 417 mm (W) x 126 mm (D) x 43 mm (H) • 0.52 kg

PSS-14 AWM PCM

Be your musical best with a wide range of voices and versatile rhythms, easy-play features and powerful stereo sound.
• 32 keys • 100 AWM Voices • 6-note Polyphony (Max.) 4 (Key Play) • 30 Auto Accompaniment Styles • 10 Songs • 620 mm (W) x 183 mm (D) x 58 mm (H) • 1.0 kg

PSS-9 FM PCM

Simple yet great-sounding music dynamo with high quality voices and rhythms, auto accompaniments and easy-to-use "Computer Aided Music" system.
• 32 keys • 100 FM Voices (including Dual, Split & Ensemble Voices) • 8-note Polyphony (Max.) • Computer Aided Music System (Auto Harmony & Ad-lib) • 19 Auto Accompaniment Styles • Song Accompaniment (13 Songs) • Single Finger Mode • 498 mm (W) x 170 mm (D) x 64 mm (H) • 1.1 kg

PSS-16 STEREO FM PCM

Add fun and excitement to your music with high quality voices and rhythms, auto accompaniments and easy-to-use "Computer Aided Music" system.
• 37 keys • 100 FM Voices (including Dual, Split & Ensemble Voices) • 8-note Polyphony (Max.) • Computer Aided Music System (Auto Harmony & Ad-lib) • 4 Drum Pads • 22 Auto Accompaniment Styles • Song Accompaniment (15 Songs) • Single Finger Mode • Stereo Sound System • 630 mm (W) x 170 mm (D) x 66.2 mm (H) • 1.4 kg

PSS-26 STEREO FM PCM

Get in touch with the wide world of music with high quality voices and rhythms, exciting easy-play features and stereo sound.
• 49 keys • 100 FM Voices • 8-note Polyphony (Max.) • 20 Auto Accompaniment Styles • Dual Voice • Chord Memory Function • Single Finger & Fingered Mode • Transpose • Stereo Sound System • 637.5 mm (W) x 252 mm (D) x 84.7 mm (H) • 2.3 kg

Availability of models may vary from country to country.

DIGITAL PERCUSSION

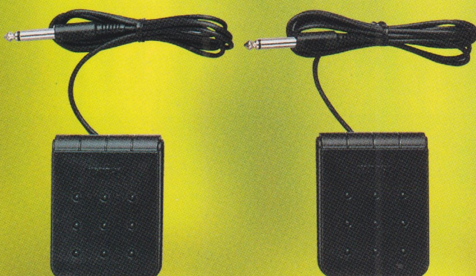

Touch-sensitive pads for dynamic performance of high-quality drum and percussion samples, plus much more.

DD-50

Exciting performance expressivity and power with 7 touch-sensitive pads, authentic drum layout, dozens of PCM percussion voices, digital reverb and MIDI compatibility.
• 7 Touch-sensitive Pads • 75 Assignable PCM Percussion Voices • 20 PCM Orchestra Voices • Digital Reverb • 100 Songs • 20 Pre-programmed Percussion Sets • Programmable "Custom" Set • "Minus One" Playback • Tap Start/Break Function • MIDI Compatibility
• Stereo Sound System • 2 Foot Pedals & Percussion Sticks Included
• 552 mm (W) x 348 mm (D) x 136 mm (H) • 3.0 kg

DD-9

Easy operation and non-stop fun with 4 touch-sensitive pads, dozens of voices, a hundred rhythm styles and a wide range of versatile play features.
• 4 Touch-sensitive Pads • 55 Assignable Voices
• 4 Sound Effect Pads with 16 Effects • 100 Auto Rhythm Styles
• 9 Pre-programmed Percussion Sets • Programmable "Custom" Set • Tap Start Function • Auto Roll Mode with 3 Variations • Percussion Sticks Included • 435 mm (W) x 236 mm (D) x 160 mm (H) • 1.4 kg

DJX

The all-in-one dance machine!

Pack the floor and keep 'em jumping! From phat to funky, ultracool to chunky the DJX is your one-stop groovestation!

Awesome sound and hip features — including a built-in sampler, way cool real-time control knobs, and the most happening Patterns and Voices ever put into a single machine!
• 61 Keys • Touch Response • 284 AWM and Sampled Voices (140 panel voices + 15 drum kits + 128 GM voices + 1 User Sampled voice) • 32-note Polyphony (max.) • Digital Sampling • Cutoff, Resonance, Groove, Assign, and Bass Boost Knobs • Ribbon Controller • Pitch Bend Wheel • Large LCD • Arpeggiator (with 16 types) • Digital Effects (Reverb: 8 types; Chorus: 4 types; DSP: 33 types) • 100 Patterns • Performance Setup (200 Preset, 16 User) • Multi Fingering Auto Accompaniment • Footswitch Control (over various functions) • Dual Voice • Split Voice • 6-track User Song Recording (Realtime and Step) • MIDI Compatibility • General MIDI Compatibility • Stereo Sound System with Bass Ports • 933 mm (W) x 370 mm (D) x 138 mm (H) • 6.8 kg
